

Floral Wishes

By Jo Leishman

Materials Required:

3mm Quilling paper: Black x 2, Medium Green x 3, Pink x 5, Pink edged White x 7 and Olive Green x 1.

Quilling tool.

Green florists wire.

Ink pen and Gold ink.

Gold Tulip paint.

Sheet of tracing paper.

P.V.A. Craft Adhesive.

Card mount: PS014 White.

To Make The Card:

Position the tracing paper over the diagram lining up the top corner of the tracing with the line and trace the design. Keep the paper traced side upwards and position it over the card mount aligning the edge of the tracing paper with the edge of the card. Re-trace over the lines pressing with the pencil so that a tiny dent appears on the card, this will allow you to position the pieces easily onto the card mount.

Add the wording onto the right hand side of the card, the dents marking the design will help you to position it accurately. I have used a gold pen and hand written mine but there are many other ways of adding words.

Flower Centres:

The flower centres are made from black paper rolled into a tight coil and glued at the end so that it does not unroll. Use a full length of paper for the large flowers and a ½ length for the two smaller ones.

Flower Petals:

The large flower is made from pink edged white paper, use a full strip for each of the five petals. Make a loose coil,

glue the end so that it does not unroll and pinch to form a teardrop. Make the smaller petals in the same way with ½ lengths of pink.

Buds:

Make eight using ¼ lengths of pink edged white paper using the same method as for the petals.

Leaves:

Make three using ½ lengths and 1 using a ¼ length of medium green. Wind a coil on the tool, drop the coil onto the table and

allow it to loosen then glue the end. Pinch both ends between your fingers and gently bend to form the shape of the leaves.

Bud Leaves:

Make eight in slightly different sizes from 25mm (approx.) lengths of medium green paper.

Wind each end of the paper just a couple of turns in the same direction. Fold in half and open just enough to fit around a bud.

Small Green Buds:

Make seven from $\frac{1}{8}$ lengths of medium green in tight coils glued at the end.

Actual Size

Flower Scrolls:

Cut five lengths of olive green paper ranging from 4cm to 6cm. Wind one end of each about 4 or 6 turns leaving the other end straight.

Take a piece of florists wire and bend to the shape of the stem, cut to length, put a little glue onto the back of the wire and stick onto the card. Arrange flowers on the card mount and position them using the marks as a guide. Stick the flowers down and add the leaves around them. Add the bud leaves and tuck the small pink buds into them. Finish with the small green buds and scrolls.

Craft CREATIONS^{Ltd} Magazine

Hello,

We hope you enjoy this free project. You may hand make copies of this project, to give away or sell, as many times as you like. You may not use the pattern, project, text or pictures for any other purpose nor make the project using any automated process.

The project was taken from a back issue of the Craft Creations Magazine.

All the articles on our web site are at least one year old. If you want the latest projects, designer profiles, gallery pages and more, then you need to subscribe to the quarterly Craft Creations Magazine.

Subscription Benefits Include:

- * A free gift with every issue.
- * Two discount vouchers off Craft Creations products with every issue.
- * A £2.50 off post and packing voucher with every issue.
- * New product information.
- * Prize competitions in every issue.

You can subscribe to the quarterly Craft Creations Magazine or purchase any of the back issues from our online shop.
