

Geometric Design

By Valerie Prettyman

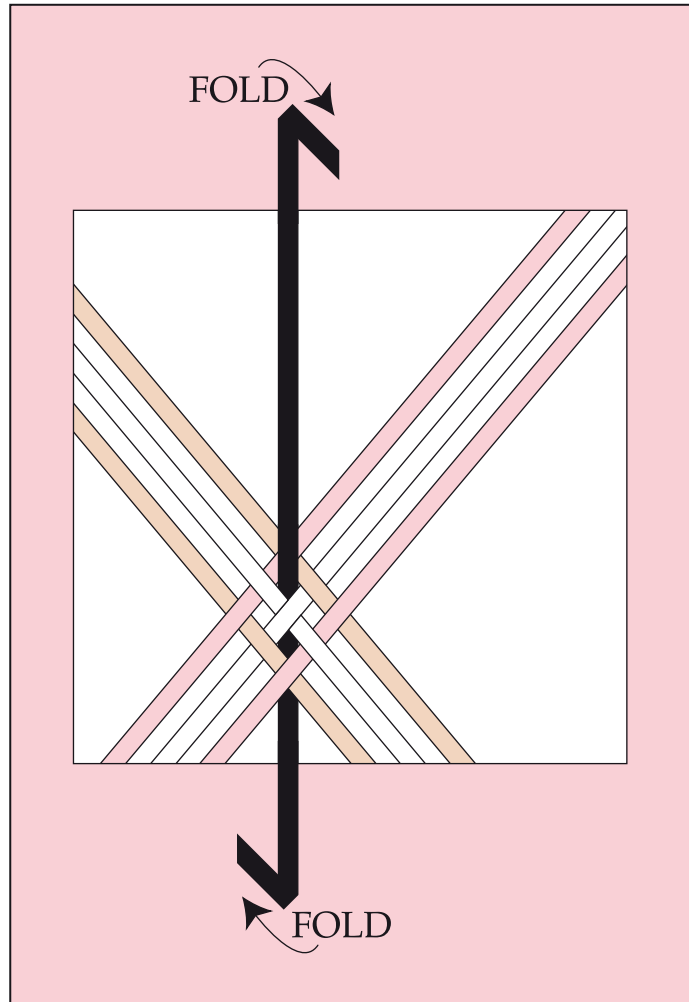

Materials Required:

A piece of wrapping paper 11cm x 11cm.
3mm quilling paper:
2 white, 2 pink, 2 beige and 1 black,
or colours to suit the background and card.
1 sticky fixer pad (cut into four).
Glue.
Sticky tape.
Card mount - AP04U.

To Make The Card:

Place the card face down and glue the wrapping paper onto the left hand panel so it will show through the aperture.

Using the pink, white and beige quilling paper, weave into the diagonal design as shown below. Trim off excess paper and tape into position on the inside of the aperture. Glue is unsuitable as it will make the card too wet.

Turn the card face up and weave the black piece of quilling paper downwards through the diagonal strands (see illustration left). After folding the ends in opposite directions stick this piece to the front of the card with a tiny dab of glue.

Open out the card and place the four pieces of sticky fixer pad on the inside of the card as shown above. This will keep some space between the background and the woven papers adding depth to the design. Lastly glue the card edges closed.
